### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

### **DETAILED ACTION**

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 3, 5-8, 13, 15-18, 21-24, 26-29, 33-40, 42 and 43 are rejected under 35 U.S.C. 102(b) as being anticipated by Hausam.

There is disclosed in Hausam a beverage making machine having a housing 12, a funnel 19 positioned relative to the housing, and a funnel blocking device for preventing disengagement of the funnel from the housing, the funnel blocking device comprising: a first engager 56 positioned on the housing, the engager including a bracket (arm) displaceably retained on the housing and an extending portion which extends at an angle from the bracket and forming a slot or opening; and a second engager (handle) 48 positioned on the funnel and designed to mate with the first engager; wherein the second engager is received in the slot of the first and engager so as the extending portion of the first engager prevents removal of the funnel.

### ***Allowable Subject Matter***

Claims 4, 14, 25, 30 and 31 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 9, 10, 19, 20 and 46-49 are allowed.

### ***Response to Arguments***

Applicant's arguments filed 5/12/2009 have been fully considered but they are not persuasive. Applicant argues that Hausam fails to disclose a bracket or slot in the bracket.

It should first be noted that the slot is not claimed as being in the bracket. The claims recite a bracket defining a slot. The Hausam reference discloses a rotatable arm which is equivalent to applicant's claimed bracket. The arm of Hausam includes a member which extends at an angle from the arm, thus forming a slot or opening with the arm which is received by the handle (second engager) of the funnel.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
